1	<p>Ultrasound Machine</p> <p>Purpose :For cannulation, nerve blocks, acute & chronic pain management in all specialties.</p> <p>Main_Feature: Digital Black & White Ultrasound Machine:-</p> <ul style="list-style-type: none"> * High resolution digital color TFT LCD 15" or above. * Digital processing. * Digital image optimizer. * Multi frequency dynamic beam control. * Maximum number of channels with digital beam scanning. * Electronic TVS. * Scan depth is 30 cm or more. * Frame rate is 250 frames/sec or more. * GTC in 8 steps or more. * Grey scale 256 image processing dynamic range post processing. * Sampling processing of BM mode. * B/M scan. * B (single/dual), B/M, M Scan. * Facilities of zooming and A annotation wide range of measurement of distance area and circumference. * Fetal growth measurement package with 4 or more different method & biometric tables fetal growth measurement. * Twin pregnancy method, histogram, hip joint measurements. * Built Cine Loop. * Thermal printer (B/W). * Hard disc store capacity of more than 300 GB, CD/DVD ROM and USB ports for image transport. * Linear and curvilinear probe with frequency 15-20 MHz. <p>Rating/Capacity of Eqpt: 220VAC, 50 Hz Type : Mobile / Trolley Mounted Accessories: * Thermal printer. * High density thermal paper roll. * USG - Gel. * Power cord. Desired Measurements : Nil. Any Other Detail : Nil Ground Support Eqpt : Compatible UPS, pure sine wave online for at least 30 min backup. Civil Work: Nil. Expendables/Starter Kits : USG Gel and high density thermal paper (B/W). Country of Manufacturing : USA, Western Europe and Japan (If assembled / Mfr in China, sole distribution certificate of principal / OEM firm should be provided) Warranty : 2 Years Likely Delivery Date :</p> <p>Project: FFH RAWALPINDI(Anesthesia, Gynae)</p>	no	3
